Team JSHD - TA Meeting 11/25/2021

Updates on progress so far
- Not much has started on A3 due to other courses
- Don't anticipate any issues so far, most core expectations were completed in A2

Will meet up tomorrow (Friday) to discuss when we would like to finish the A3
- We saved things until the last minute with A2 so we want to prevent that
- We should also want to confirm that our roles are still on track

A3 Due on Dec 3rd.
- Soft deadline, nothing is marked on Dec 3rd itself
- If we finish by Dec 3rd, we are able to get feedback before meeting
- Presentation is Dec 6th.
- We have finished most of the core functionality already, we just need extra features/bug fixes/
- *Allocate time for writeup*

Presentation
- No limitations or expected format (slides, no slides, feel free to be creative)
- Cover what was done on project
- Course is about communication throughout project development, so focus on that
- Presentations should be around 10-15 minutes (check A3 handout to be sure)

Interviews
- Interviews will have 2 TAs and Michael
- One person at a time.
- Talk about what you worked on and how it was like working with everyone else in the group.
